

VIBHOR RAJAN MESHRAM

Java Full Stack Developer | Spring Boot | React | Microservices

+91 8308904649 | vibhor.meshram.work@gmail.com | [LinkedIn](#) | [GitHub](#) | Pune, India | Open to relocation

PROFESSIONAL SUMMARY

Full Stack Java Developer with 4+ years of experience building production-grade web and Android applications across IoT, SaaS, and fintech domains. Hands-on with Spring Boot microservices, React/React Native, JWT-based security, and AWS deployment. Open to relocation.

WORK EXPERIENCE

Software Engineer – Java Full Stack | Metadesign Software, Pune | Jul 2022 – Present

DMS – Dymond Management System Spring Boot · Microservices · JWT · AWS IoT Core · Docker · PostgreSQL · React.js

- SaaS IoT platform for managing vending machines, car washes, and laundromats across US and Canada, supporting 1,200+ active devices.
- Designed and built microservice modules covering device lifecycle, real-time monitoring, and inventory management; contributed to 100+ REST APIs across the full tenure.
- Extended Spring Security and JWT-based authentication to support ACL-driven role access control across merchant and admin portals, covering 500+ merchant accounts.
- Built and maintained a real-time alerting system using AWS IoT Core and Lambda; detected and helped resolve 200+ device failures annually.
- Contributed to Docker-based deployments and CI/CD pipelines on AWS, improving release consistency and reducing manual deployment steps across environments.

WeVend – Unattended Vending Platform Spring Boot · React.js · React Native · PostgreSQL · AWS

- Built full-stack web and Android application for unattended vending operations; developed Spring Boot backend with PostgreSQL for inventory and device health tracking.
- Delivered end-to-end React.js and React Native UI screens integrated with payment workflows and real-time device sync across multiple US and Canada locations.

eGift Solutions – Gift Card Management App React Native · Java · Clover SDK · Android

- Delivered Clover Android app for gift card lifecycle management — activation, redemption, balance top-up, and refunds; adopted by 300+ merchants across 600+ devices.
- Added barcode scanning for fast card handling and built a reporting dashboard with transaction charts for merchant insights.

General

- Performed root cause analysis and resolved production bugs across modules; regularly participated in sprint planning, code reviews, and client demos in an Agile setup.

Software Engineer Trainee – Java Full Stack | Happily Ever, Hyderabad | Jan 2022 – Jun 2022

- Developed UI screens and backend APIs supporting core application features, contributing to delivery of sprint tasks on schedule.
- Structured JSON data for MongoDB collections used in questionnaire and notification modules, improving data organisation for dynamic use cases.
- Assisted with alert and push notification flows; supported testing and debugging during releases.

TECHNICAL SKILLS

Backend: Java 8+, Spring Boot, Spring Security, Hibernate/JPA, REST APIs, Apache Kafka, Maven, JWT, Microservices, JUnit

Frontend: React.js, React Native, TypeScript, JavaScript (ES6+), HTML5, CSS3, Context API, Redux Toolkit

Databases: PostgreSQL, MySQL, MongoDB, SQL, ORM/JPA

Cloud & DevOps: AWS (IoT Core, Lambda, EC2), Docker, CI/CD, NGINX, GitHub

Tools & Practices: Git, Postman, OpenAPI/Swagger, Agile/Scrum, Code Reviews, RCA, TDD

EDUCATION

Master of Computer Applications (MCA) – Lovely Professional University, Punjab | 2025 – 2027 (Pursuing)
B.Sc. in Computer Science – Nagpur University, Maharashtra | 2019 – 2022 | 69.3%

CERTIFICATIONS & TRAINING

- Full Stack Web Development & DSA – AccioJob (2021–2022)
- Java Design Patterns – Self-trained: Creational, Structural, and Behavioral patterns
- AWS & Apache Kafka – Self-trained through hands-on project implementation

Languages: English (Professional), Hindi (Native) | Open to relocation across India
